All this, backed by a Lifetime Transferable Limited Warranty!

YOUR HOME IS YOUR BIGGEST INVESTMENT. INVEST WELL.

REASONS PEOPLE REPLACE WINDOWS:

■ **CONDUCTION** occurs when heat travels through your windows. It's the biggest energy loss factor in a home.

■ **AIR INFILTRATION** results when the window frame and sash do not fit together or are not properly installed.

■ **CONVECTION** happens when air moves from warm to cold spaces, creating drafts along floors and increasing energy bills.

■ **SOLAR HEAT GAIN** should be blocked out in summer to save air conditioning costs; in winter it can help cut down heating bills.

■ **CONDENSATION**, a build-up of moisture on glass, can result in mold and bacteria growth.

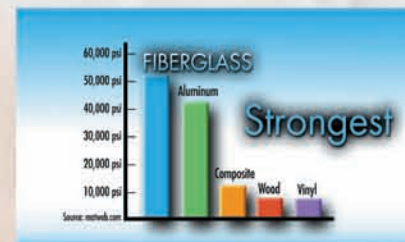

DON'T LET YOUR ENERGY DOLLARS FLY OUT YOUR OLD, LEAKY WINDOWS!

FIBER Fusion 1000™ Has The Solution!

THE EXPERTS AGREE: Replacing your windows is one of the best investments you can make to your home.

FIBERGLASS meets every need, every situation, better than any other material. And the best fiberglass window system on the planet?

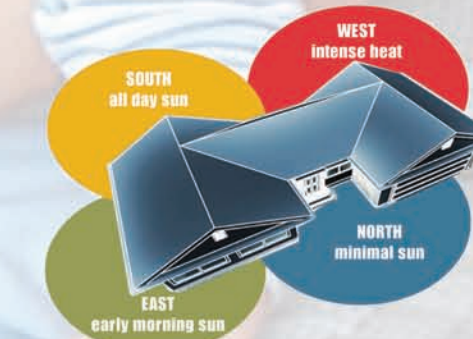

✓ Fiberglass is the **STRONGEST** framing material available.

- ✓ FiberFusion windows:
 - Durable, Resistant to Pollutants, Corrosion and Impact
 - Florida Building Code Approved
 - The only windows with **NON-MECHANICAL, SCREWLESS CORNERS** guaranteeing the ultimate in weather-tight performance, strength and aesthetics
 - Withstand extreme temperatures and windload
 - No sagging, warping, scratching or denting
 - Condensation resistant

✓ Superior thermal performance means your energy costs will drop and your savings grow!

- ✓ Make your life easier:
 - Double hungs and sliders tilt-in or lift for easy cleaning
 - Practically maintenance-free – no sanding, painting, rot or rust

✓ Complete line of high-performance glass packages enables you to **SOLAR TUNE** your home for maximum comfort and energy savings.
